

ON-HARVESTER FORAGE ANALYZER

EvoNIR

Real time analysis as you harvest your crops

Hundreds of **calibrations** and **nutrients** available from our extensive dataset

PROTEIN

DRY
MATTER

ADF

NDF

ASH

CRUDE
FAT

ETC...

For Forage Analysis
Where you need it most
When you need it most

EvoNIR for forage harvesters

Accurate nutrient analysis in real-time

Thanks to the EvoNIR, growers and contractors are able to determine crop nutrient quality on the go.

OUTSTANDING ACCURACY WITH ALMOST ANY CROP

The system provides accurate real-time results with different crops; no matter where you are or what you harvest, Dinamica Generale is capable of offering a comprehensive database of calibration curves to fulfil your needs.

Real time analysis and mapping as you harvest

Main benefits

- 1 Fit all makes of forage harvesting equipment
- 2 Analyze the quality of forage during harvesting and create maps in real time
- 3 Get higher prices for forages and hay being sold
- 4 Increase your efficiency while controlling costs
- 5 Provide decision making info for each lot in terms of nutrients to feed animals

Ingress Protection	IP69K
Accuracy*	Moisture, ADF, NDF, Starch, Ash, Crude Fat, Sugar pH
Power supply	12 - 32 Vdc
Weight	4kg
Working Temperature	-10 / +50 °C (14 / +122 °F)
Case Dimensions	171 x 233 x 174 mm
Case Material	Aluminium
ISOBUS Virtual Terminal Compatible	Yes
ISOBUS Task Controller Compatible	Yes

* The degree of accuracy depends upon the availability of prediction models for each product, on-site verification of the instrument, use of the NIR Evolution Cloud Software
